"Lifted, Carried or Moved...So As To Not Endanger"
Ergonomics Injury Risk Analysis Tools
Date: Thursday April 23rd 2009

In the Heart of St. Jacobs Country... at the Best Western St. Jacobs Country Inn, Waterloo

- Some of the many discussion topics...
1. what is manual materials handling (MMH)?
2. the MH provisions & other compliance requirements
3. possible approaches to determining compliance status
4. safe physical demands or overexposure to injury risk?
5. accepted tools for ergonomics hazard analysis
6. selecting the most appropriate injury risk tool(s)
7. analysis tools... NIOSH, Snook, Watbak, 3DSSPP, etc
8. Bring some of your own workplace MMH examples!

Includes "hands-on" workshops using injury risk tools!
Ask us about on-site delivery &/or Part III!
